

Topics 2027

Issue	Ad Deadline	Print Material Deadline	Publication Date	Main Topic	Topics	Trade Fairs and Events
1	12.01.2027	15.01.2027	02.02.2027	Future-Proof Networks - Planning, Building and Operating Safely	Sewer, Pipeline and Civil Engineering Stormwater Management and Road Drainage Road Pavement, Base Layers, Paving Technology and Restoration of Traffic Areas Network Management, Condition Assessment and Digitalization Machines and Methods in Sewer and Road Construction Network Expansion in Road Space: Water, Wastewater, Heating, Electricity and Fiber Optics Trenchless Methods, Location Detection, Shoring and Restoration Preview: 39th Oldenburg Pipeline Forum	11.-15.01.2027, BAU, Munich 21.01.2027, Civil Engineering Forum 2027, Ulm 04.-05.02.2027, 39th Oldenburg Pipeline Forum 16.-19.02.2027, 55th VDBUM Major Seminar, Willingen
2	25.03.2027	01.04.2027	19.04.2027	80 Years of STRASSEN- & TIEFBAU	Anniversary Issue: Roads, Sewers and Civil Engineering – Looking Back and Ahead Asphalt Construction under New Regulations: Temperature Reduction, Occupational Safety, Recycling and Quality Assurance Concrete Roads and Heavy-Duty Traffic Areas Bridge and Concrete Construction Earthworks, Foundation and Specialist Civil Engineering Soil Management, Mineral Substitute Building Materials and Circular Economy Everything About Landscaping: From Sponge Cities to Smart Tree Care – Green Solutions and Efficient Compact Machines	10.-11.03.2027, 36th Dresden Bridge Construction Symposium 20.-23.04.2027, Ro-Ka-Tech 2027, Kassel 21.-24.04.2027, Intermat 2027, Paris
3	10.05.2027	13.05.2027	01.06.2027	Water-Sensitive Construction – Managing Rain, Adapting Surfaces	Stormwater Management and Heavy Rain Precaution: Storing and Using Rainwater and Returning It to the Local Water Balance Road Drainage, Retention and Infiltration Treating Road Runoff: Retaining Tire Abrasion, Sediments and Pollutants Operation, Maintenance and Digital Control of Stormwater Systems Sewer, Shaft and Storage Systems Paving Technology and Permeable Surfaces Soil Management and Climate-Adapted Open Spaces Compact Machines and Recycling Technology Preview: RecyclingAKTIV & TiefbauLIVE	03.-05.06.2027, RATL - RecyclingAKTIV & TiefbauLIVE, Karlsruhe

Topics 2027

Issue	Ad Deadline	Print Material Deadline	Publication Date	Main Topic	Topics	Trade Fairs and Events
4	13.07.2027	16.07.2027	03.08.2027	Securing Assets – Preserving Roads, Bridges and Pipelines	Road and Bridge Maintenance Digital Condition Diagnostics and Predictive Maintenance Management, Building Materials and Quality Assurance Sewer and Pipeline Rehabilitation Trenchless Methods, Inspection and Robotics Rehabilitation and Preservation of Paved Areas Construction Management in Times of Rising Investment: Building Fast, Ensuring Quality Construction Site Logistics Machines for Rehabilitation Projects	
5	10.09.2027	15.09.2027	01.10.2027	Future-Proof Roads – Building and Operating Resiliently	Climate-Resilient Road Construction Road Drainage, Culverts and Slope Stabilization Infrastructure Management and Road Operations Road Infrastructure as an Energy Hub: Charging Parks, Photovoltaics and Grid Connections Durable and Resource-Efficient Building Materials Climate-Adapted Paving and Surface Construction Traffic Safety and Road Equipment Municipal Machine Technology and Machines for Maintenance and Winter Service	19.-22.10.2027, A+A Messe, Düsseldorf 2027, 72. NordBau, Neumünster
6	10.11.2027	15.11.2027	01.12.2027	Connected Construction Site – Processes, Machines and People	Yearbook 2028: Trends, Solutions and Industry Suppliers. This compact market overview provides decision-making support for planning, procurement and investment Innovative Machines for Road and Civil Engineering BIM, AI and Digital Twin Machine Control, Surveying and Documentation Digital Asphalt Paving, Compaction Control, Surveying and Quality Documentation Construction Site, Fleet and Process Management Electric Construction Machinery and Site Power Supply Occupational Safety and Skilled Workers
